ANTI-VANDAL SWITCHES

E-Switch's anti-vandal switch series is great for any A/V equipment that requires aesthetic appeal. Not only are they designed to look sharp and to be secure, they also offer dot or ring illumination options, and come in multiple sizes.

These anti-vandal switches work great in any application requiring a robust and secure product.

PUSHBUTTON SWITCHES

E-Switch offers many pushbutton switches geared toward the audio/visual industry. Our products offer quality you can trust with many options that are sure to fit your application.

Many variations are available, including illuminated and non-illuminated versions, custom markings on caps, panel mount and board level pushbutton switches.

ROCKER SWITCHES

E-Switch offers rocker switches that are perfect for your panel mount audio/visual mixers and video interfaces.

Our rocker switches come with full illumination or partial illumination, custom markings, IP ratings and more.

ROTARY SWITCHES

E-Switch offers many different models of rotary switches that work great for audio/visual applications.

Our rotary switches come in 1 to 4 poles and up to 12 positions, so you can find the style and function you need for your project.

Switch Solutions for Audio/Visual Applications. With a robust line of A/V switch products, from rockers and slide switches, to pushbuttons and tact switches, E-Switch has the solution for your Audio/Visual application. Need an aesthetic design? We've got it. Need illumination? We have that, too! Contact E-Switch for your next project. Our engineers and sales support team will be with you every step of the way.

SLIDE SWITCHES

E-Switch's slide switch series offer unlimited possibilities for your audio/visual needs. Great for use in portable audio/visual equipment and smaller devices.

You have a broad range of choices with E-Switch's slide switch products. Many different positions, actuators, and sizes are available.

TACTILE SWITCHES

E-Switch is well known for its reliable tact switches. With a very large family of tact switches to choose from, you will find the perfect fit for your project.

Illuminated and non-illuminated tact switches are available, as are right angle, SMT, PC pin and more.

TOGGLE SWITCHES

E-Switch offers toggle switches that are a perfect fit for your audio/visual devices.

Our toggle switches have multiple bushing and actuator options, are board level or panel mount, and offer multiple termination options.

ILLUMINATION

E-Switch offers many varieties of illuminated switches for audio/visual applications.

Our illuminated switches come in many styles, colors, termination options and sizes, so you will be sure to find the one needed for your design project.
