

IP54 VENTILATING FILTERS

Mechatronics offers ventilating filters ranging in sizes from 105mm – 420mm. Ideal for filtering out unwanted particles and moisture to extend the service life of electronics. These filters are designed to accommodate multiple fan models with varying CFM output.

- Shallow mounting depths aid installation and application design
- Fan can be oriented for intake or exhaust
- All models are made with UV resistant ABS resin and meet UL94V-0 flammability requirements
- IP54 rated
- Optional RAL7032 or RAL035 coating
- Optional die cast aluminum construction

Hooded style for heavy water exposure

Standard 45 degree angled filter

Installation Method

IP54 FILTER KITS
